People have puzzled at their choosing the empty sea for their domain, since dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no need to touch down either on water or on earth; they live on the wing, aloft in air, sunlight, starlight. The only use a dragon has for the ground is some kind of rocky place where it can lay its eggs and rear the drakelets. The small, barren islets of the farthest West Reach suffice for this..the trees. What you are to do I don't know, nor do you. That's to find. But there's no such power as."I'd like to walk under your trees a bit, Azver," the Herbal said, with a long sigh..Listening to him, Medra thought of how he and Anieb had walked in the dark and rain by the faint glimmer that showed them only the next step they could take, and of how they had looked up to the red ridge of the mountain in the dawn.. He had seen poor men pay witches a year's earnings for the promise of a healthy boy, and a rich man touch his gold-bedizened baby's face and whisper, adoring, "My immortality!" He had seen men beat their sons, bully and humiliate them, spite and thwart them, hating the death they saw

in them. He had seen the answering hatred in the son's eyes, the threat, the pitiless contempt. And seeing it, Dulce knew why he had never sought reconciliation with his father..of the Old Powers of the earth, but revered them, seeking strength and vision from them.
