"Ah, that," Medra said, rueful..After Morred, seven more kings and queens ruled from Enlad, and the realm increased steadily in size and prosperity..but sometimes one can get into the reals. . ."I told them," he said, "that if they went out Medra's Gate this day, they'd never go back through.famous wizard." "Has it come to this," the Namer said, "that we stand at the edge of the forest Segoy planted and.She gazed at him from her unreadable eyes, and finally said, "What must I do?".learned his true name from the trees of the Immanent Grove, and become the Patterner of Roke, All.There they fished for whales, as they still do. That was a trade he wanted no part of. Their ships stank and their town stank. He disliked going aboard a slave ship, but the only vessel going out of Geath to the east was a galley carrying whale oil to O Port. He had heard talk of the Closed Sea, south and east of O, where there were rich isles, little known, that had no commerce with the lands of the Inmost Sea. What he sought might be there. So he went as a weatherworker on the galley, which was rowed by forty slaves..The ship's weatherworker came aboard just before they sailed, no Roke wizard but a weatherbeaten fellow in a worn sea-cloak. Ivory flourished his staff a little in greeting him. The sorcerer looked him up and down and said, "One man works weather on this ship. If it's not me, I'm off." "He cannot harm me anywhere," she said, the fire running through her veins again. "If he tries to.,dark years will come again, when there was no rule of justice, and wizardry was used for evil." "Oh Di," she said, "it will be awful when you go." "My mother was born in Endlane, round by Faliern Forest," Otter said. "Do you know that town? She's called Rose, Rowan's daughter." He was gone several days. When he returned, riding in a horse-drawn cart, he had such a look about him that Otter's sister hurried in to tell him, "Hound's won a battle or a fortune! He's riding behind a city horse, in a city cart, like a prince!".Often her mind here seemed empty of thought, full of the forest itself, but this day memories came.When Veil came up from town to bring them the last of the late peaches, they laughed; peaches were the very emblem of their happiness. They tried to make her stay and eat supper with them, but she wouldn't. "Stay here while you can," she said.. "My mastery is here, on Gont," he said, still speaking hardly above a whisper. Men had attacked them. It was men's ambitions, they said, that had perverted all the arts to ends of gain. "We do not deal with their governments," said tall Veil in her mild voice..They sat unspeaking. The crisis passed. Heleth relaxed a little and even smiled. But when his thoughts settled down and began to run clearer, he knew that he could not defeat a wizard of great craft and power, even if that wizard was mad. It had been a handsome place once, two stories built of stone, but was half empty, defaced, window frames and facing stones pulled out of it. They crossed a courtyard with a well in it. She knocked at a side door, and a girl opened it..Azver nodded, in silence..which wasn't much more than a cupboard built onto the corner of the house. But the birds would have..to forage if he stayed away. They must take their chances, like everyone else. He opened their gate a little. Though the rain was no more than a misty drizzle now, they stayed hunched up under the henhouse eaves, disconsolate. The King had not crowed once this morning..The next day she said, "I'm going to sit under the trees." Not sure what was expected of him, he followed her at a distance till they came to the inmost part of the Grove where all the trees were of the same

kind, nameless yet each with its own name. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back..Otter's humble teachers had taught him pride. They had trained into him a deep contempt for long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were.He asked Birch about the place. "That's Iria," Birch said - "Old Iria, I mean to say. I own the house by rights. But after a century of feuds and fights over it, my granddad let the place go to settle the quarrel. Though the Master there would still be quarrelling with me if he didn't keep too drunk to talk. Haven't seen the old man for years. He had a daughter, I think." The ewe sighed deeply and suddenly walked."And sometimes witches and sorcerers will say that they've summoned the dead to speak through them. Maybe a child the parents are grieving for. In the witch's hut, in the darkness, they hear it cry, or laugh..."When she was thirteen the old vineyarder and the housekeeper, who were all that was left of the household, told the Master that it was time his daughter had her naming day. They asked should they send for the sorcerer over at Westpool, or would their own village witch do. The Master of Iria fell into a screaming rage. "A village witch? A hex-hag to give Irian's daughter her true name? Or a creeping traitorous sorcerous servant of those upstart landgrabbers who stole Westpool from my grandfather? If that polecat sets foot on my land I'll have the dogs tear out his liver, go tell him that, if you like!" And so on. Old Daisy went back to her kitchen and old Coney went back to his vines, and thirteen-year-old Dragonfly ran out of the house and down the hill to the village, hurling her father's curses at the dogs, who, crazy with excitement at his shouting, barked and bayed and rushed after her..Roke Island, the Bay of Thwil. He opened it to.to obey me!".The trouble rose up in Irioth's mind as it had not done since he came to the High Marsh. He struggled against it. A man of power had come to heal the cattle, another man of power. But a sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need to fear him. I do not need to fear his power. I do not need his power. I must see him, to be sure, to be certain. If he does what I do here there is no harm. We can work together. If I do what he does here. If he uses only sorcery and means no harm. As I do..The curer checked the girths, eased a strap, and got up in the saddle, not expertly, but the hinny made no objection. She turned her long, creamy-white nose and beautiful eyes to look at her rider. He smiled. Gift had never seen him smile..hard red wine from his last vineyard and walking his boundaries with a troop of ill-treated,.benches, barrels of oil breaking loose and thundering over one another-pulled her over and held.She came to the door and muttered some kind of greeting. What did it matter if he was mad? He was gentle, and might have been wise once, before what happened to him happened. And he wasn't so mad as all that. Mad in patches, mad at moments. Nothing in him was whole, not even his madness. He couldn't remember the name he had told her, and told people in the village to call him Otak. He probably couldn't remember her name either; he always called her mistress. But maybe that was his courtesy. She called him sir, in courtesy, and because neither Gully or Otak seemed names well suited to him. An otak, she had heard, was a little animal with sharp teeth and no voice, but there were no such creatures on the High Marsh.."Before the dragon came, the Summoner too had returned from death, where he can go, where his art.and mother and housekeeper, already made too much of Diamond's talents and accomplishments. It's my horse needs a good bed; he's tired. I'll sleep in the barn and be off in the morning. Cows are a pleasure to sleep with on a cold night.
