"Come" she said, "before you fall asleep there," and he followed her obediently to Berry's room, which wasn't much more than a cupboard built onto the corner of the house. Her room was behind the chimney. Berry would come in, drunk, in a while, and she'd put down the pallet in the chimney corner for him. Let the traveler have a good bed for a night. I decided that it would be better for me to wait for someone to come. "No," Azver said, but could say nothing else. He held his staff of willow, but it was only wood in his hand. Birch was sending a carter down to Kembermouth with six barrels of ten-year-old Fanian ordered by the wine merchant there. He was glad to send his wizard along as bodyguard, for the wine was valuable, and though the young king was putting things to rights as fast as he could, there were still gangs of robbers on the roads. So Ivory left Westpool on the big wagon pulled by four big carthorses, jolting slowly along, his legs angling. Down by Jackass Hill an uncouth figure rose up from the wayside and asked the carter for a lift. "I don't know you," the carter said, lifting his whip to warn the stranger off, but Ivory came round the wagon and said, "Let the lad ride, my good man. He'll do no harm while I'm with you." The wizard's eyes narrowed and his smile broadened. He helped her stand. He made no spell to protect or hide them. His strength had been used up. And though there was a great magery in her, which had brought her with him every step of that strange journey into the valley and tricked the wizard into saying his name, she knew no arts or spells, and had no strength left at all. "Do you think that's true?" he asked. wizard. "The man came in the door with a gust of cold wind, "the gentleman will stay with us while he's curing. He knew that, knew it absolutely, though still he tried to say spells, and raised his arms in the incantation, and beat the air in fury. Then he looked eastward, straining his eyes for the flashing beat of the galley oars, for the sails of his ships coming to punish these people and save him. "It was a hundred and twenty-seven years ago. I was thirty then. The expedition. . . I was. "I won't sail my boat across Havnor, dear love. I plan to go around it. By water." He could always make her laugh; he was the only one who could. When he was away, she was quiet-voiced and even-tempered, having learned the uselessness of impatience in the work that must be done. Sometimes she still scowled, sometimes she smiled, but she did not laugh. When she could, she went to the Grove alone, as she had always done. But in these years of the building of the House and the founding of the school, she could go there seldom, and even then she might take a couple of students to learn with her the ways through the forest and the patterns of the leaves; for she was the Patterner. "And cast wide!" He looked from one to the other again. "I wasn't well taught, in the City of. very little else. It surprised him a little. He thought he ought to be homesick, to think about. In the confusion of Otter's mind, he was only dimly aware that they were going now towards the entrance of the mine. They went underground. The passages of the mine were a dark maze like the wizard's words. Otter stumbled on, trying to understand. He saw the slave in the tower, the woman who had looked at him. He saw her eyes. The villagers shook their heads. Gift was a brave woman, but there was such a thing as being too brave. Or brave, they said around the tavern table, in the wrong way, or the wrong place, d'you see. Nobody should ought to meddle with sorcery that ain't born to it. Nor with sorcerers. You forget that. They seem the same as other folk. But they ain't like other folk. Seems there's no harm in a curer. Heal the foot rot, clear a caked udder. That's all fine. But cross one and there you are, fire and shadows and curses and falling down in fits. Uncanny. Always was uncanny, that one. Where'd he come from, anyhow? Answer me that. Outside the gleam of werelight it was dark. When the city was in order again, and the ships had all come back, and the walls were being rebuilt, Ogion escaped from praise and went up into the hills above Gont Port. He found the queer little valley called Trimmer's Dell, the true name of which in the language of the Making was Yaved, as Ogion's true name was Aihal. He walked about there all one day, as if seeking something. In the evening he lay down on the ground and talked to it. "You should have told me, I could have said goodbye," he said. He wept once, and his tears fell on the dry dirt among the grass-stems and made little spots of mud, little sticky spots. where it's safe, and where the great robbers and killers would least look for it, since no one. "I can protect you here, and have done so. On Roke, of course, you'll be perfectly safe. The very walls, there. But if you go home, you must be willing to protect yourself. It's a difficult thing for a young man, very difficult -- a test of a will that has not yet been steeled, a mind that has not yet seen its true goal. I very strongly advise that you not take that risk. Write your parents, and go to the Great Port, or to Roke. Half your year's fee, which I'll return to you, will see to your first expenses." The boy was in fact a workman of the first order, carpenter, cabinetmaker, stonemason, roofer; he. with the dead are counterfeits of magic, glass to the diamond, brass to the gold. They are fraud. He found a carter who would carry them down to Endlane, Otter's mother and sister were living with cousins while they rebuilt their burned house as best they could. They welcomed him with disbelieving joy. Not knowing Hound's connection with the warlord and his wizard, they treated him as one of themselves, the good man who had found poor Otter half dead in the forest and brought him home. A wise man, said Otter's mother Rose, surely a wise man. Nothing was too good for such a man. wizard. "I told them," he said, "that if they went out Medra's Gate this day, they'd never go back through it into a House they knew. Some of them were for turning back, then. But the Windkey and the Chanter urged them on. They'll be along

soon." He looked stern. The dragon bore him away." During the voyage, however, he talked several times with Dragonfly, which made Ivory a bit uneasy. Her ignorance and trustfulness could endanger her and therefore him. What did she and the bagman talk about? he asked, and she answered, "What is to become of us." "You never sent to me, you never let me send to you, all the time you were gone. I was just supposed to wait until you got tired of playing wizard. Well, I got tired of waiting." It was men's ambitions, they said, that had perverted all the arts to ends of gain. He spent all that day drowsing before the fire with the grey cat, while Gift went in and out at her work, offering him food several times-poor, coarse food, but he ate it all, slowly, valuing it. Come evening the brother went off, and she said with a sigh, "He'll run up a whole new line of credit at the tavern on the strength of us having a lodger. Not that it's your fault."..But put it away, sir! It makes me dizzy to look at it. -Berry," she said, as a nobbly, dried-up.street, apparently. We were quite alone on it.
