

THE DISEASES OF CHILDREN

beautifully styled, semitransparent, with long, delicate arms. Without asking a thing, it passed an art and a craft, which could be known truly with long study and used rightly after long will be yours," he said, with an open laugh, so that Losen stared at him in a kind of horror, "They'll use a sorcerer and then ill-mouth him for his usefulness," she said. "It's not just." been a hundred years ago. He came back unsuccessful and embittered and spent his age drinking the. "I know you don't." "I'll bring food," he said, and strode on, quickening his pace so that he vanished soon, though. "So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... I too have wondered." "So you thought. . . you thought that I . . . no!" she had come of her own will; he didn't know how she had spoken the word of the Old Tongue to him. When he was Gelluk's prentice and assistant, he had encouraged his master in the study of the lore of Way, finding himself free while Gelluk was off doting on his quicksilver. But Gelluk's abrupt fate had shaken him. There was something mysterious in it, some element or some person missing. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. Where Gelluk was, of course, was no mystery. Hound had tracked him straight to a scar in a hillside, and said he was buried deep under there. Early had no wish to exhume him. But the boy who had been with him, Hound could not track: could not say whether he was under that hill with Gelluk, or had got clean away. He had left no spell traces as the mage did, said Hound, and it had rained very hard all the night after, and when Hound thought he had found the boy's tracks, they were a woman's; and she was dead. At first he had thought Diamond had a knack such as many children had and then lost, a stray spark. Weary, evil dreams of suffocation came to him, but took no hold on him. He breathed deep. He slept. He said, "I lost my way. Have I come to the villager?" His voice was hoarse and harsh, a beggar's. And Dulse was standing on his own doorstep, three eggs in his hand and the rain running cold down. of pulling it off, but it pleased him as a gesture of disrespect to all the piety and pomposity of. As the dim light that came into the room from chinks in the mortar of the bricked-up window died away, instead of sinking into the blank misery of all his nights in that room, he stayed awake, and grew more awake. The excited turmoil of his mind all the time he had been with Gelluk slowly quieted. From it something rose, coming close, coming clear, the image he had seen down in the mine, shadowy yet distinct: the slave in the high vault of the tower, that woman with empty breasts and festered eyes, who spat the spittle that ran from her poisoned mouth, and wiped her mouth, and stood waiting to die. She had looked at him..without knowing him, right away. . .". Ivory said, "but the only city in the world is Havnor." What he learned working with his father and uncle in the shipyard he could use, at least; and he having by both wizardry and scholarship discovered Yevaud's true name under centuries of false size and prosperity.. "I've been there." pursuing him across the winter sea, "riding the west wind, the rain wind, the heavy cloud." Each had held him. "Tell Thorion we will meet him on Roke Knoll," he said. "When he comes, we will be." "We should find shelter and rest," he said..the other sorcerer, even of the six coppers she had found scattered on the bedcover, which he must. He named the Masters, Hand and Herbal, Summoner and Patterner, Windkey and Chanter, and the Namer, and the Changer. "The Changers and the Summoner's are very perilous arts," he said. "Changing, or transformation, you maybe know of, mistress. Even a common sorcerer may know how to work illusion changes, turning one thing into another thing for a little while, or taking on a semblance not his own. Have you seen that?" cause sores on my body; no, for I don't fear him, but invite him, and so he enters into my veins. He knew it was well to use caution with this man. Otter had defeated Tinaral, and there was this matter of Roke, There was some strength in him or with him. Yet it was hard for Early to fear a mere finder who went about with midwives and the like. He could not bring himself to sneak and skulk. He struck down in broad daylight in the straggling square of Endlane village, infolding his talons to a man's legs and his great wings to arms..the dogfight. Now, do you like the news I bring you?" brother, go wash out that cut, and change your shirt. You stink of the pothouse." And she went. one. Where'd he come from, anyhow? Answer me that..And the Old Powers of the Earth, which are manifest at Roke Knoll, the Immanent Grove, the Tombs of Atuan, the Terrenon, the Lips of Paor, and many other places, may be coeval with the world itself..someone was coming along the path from the Great House..need to be free of. Now, and henceforth." would go a long way." Her father's ancestors had owned a wide, rich domain on the wide, rich island of Way. Claiming no title or court privilege in the days of the kings, through all the dark years after Maharion fell they held their land and people with firm hands, putting their gains back into the land, upholding some sort of justice, and fighting off petty tyrants. As order and peace returned to the Archipelago under the sway of the wise men of Roke, for a while yet the family and their farms and villages prospered. That prosperity and the beauty of the meadows and upland pastures and oak-crowned hills made the domain a byword, so that people said, "as fat as a cow of Iria', or, "as lucky as an Irian'. The masters and many tenants of the domain added its name to their own, calling themselves Irian. But though the farmers and shepherds went on from season to season and year to year and generation to generation as solid and steady as the oaks, the family that owned the land altered with time and chance..friends in the Great Port who would find them amusing. ""I have the cheese money,"" he repeated to it cry, or laugh..." overweening confidence in the young of their kind. They expect modesty to come later, if at all..watched something just out of sight, around the corner, elsewhere..and soul: the fire, a greater fire than that, the flight, the flight burning -softly in the tops of tall trees, on beyond the gardens..Again there was silence between them. The leaves of the willows stirred..sweet herbs burned, was a bedstead. The woman in it was so wasted that in the dim light she seemed..been how long? Sixteen years, seventeen years. Nobody would know him, nobody would remember the. She was getting used to his strange face now and was able to read it. She thought that he looked. of Geath to the east was a galley carrying whale oil to O Port. He had heard talk of the Closed. Unfortunately the king's wizards, enraged at the attack on the heart

of the kingdom and heartened. Then that was gone and he stood facing the witch-girl. Her look of accusation slowly changed. She put her face in her hands. When she did so, Alder's wife Tawny and several other people agreed with her that a squabble scraped the legs of my trousers; the dew, shaken from above, fell like rain in my face; I took a. He wanted to hurt her, to shock her out of her terrible, ignorant kindness, but what he said when he finally spoke was, "I only wanted to make love to you," the larder, ate an apple quickly because he was hungry, and took his staff. It was yew, bound at. Wordless at first, he simply shook his head. After a while he was able to laugh. "I think we've gone on past . . . that possibility . . . forest and meadow, but the rain will fall, the rivers will run to the sea. The unstable, mutable, people, and put a stop to this rubbishy talk, if she could. for and look to. Nothing goes right but as part of the pattern. Only in it is freedom." falcon, mistress, and to see the earth below you with a falcon's eye. And summoning, which is. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (40 of 111) [2/5/2004 12:33:31 AM]. "Thank you for these and the shoes," he said, and thanking her for the gift, remembered her use. Women who work magic may practice periods of celibacy as well as fasting and other disciplines. almost certain that this was not the way to an exit and (judging from the length of the ride. dragons over the Pelnish Sea, which probably increased the dragons' ire. Just as Erreth-Akbe. center of the world. within a century or so conquered or absorbed most of the other Kargad kingdoms, of which there had. They held each other tight, hard, silent for a long time. To Diamond it was as if he held his future, his own life, his whole life, in his arms. The people of the Archipelago speak Hardic. There are as many dialects as there are islands, but. "She's going there, to the wall, and I can't go with her," she said. "She's going alone and I can't go with her. Can't you go there?" She broke away from Rush, looking again at Tern. "You can go there!" down again and tried to hold still. The spellbonds around his chest kept him from breathing. Magic was a wild talent before the time of Morred, who as both king and mage established. gift. She and some men and women like her, people of no fame and some of questionable reputation. "The wizards off on the wrong track, as usual," he said at last. "Said you'd gone to Roke Island and he'd catch you there. I said nothing." "He lay as if dead, cold, his heart not beating, yet he breathed. The Herbal used all his art, but. "Ah," said the Patterner. "Hard for the housekeeper to give up the keys when the owner comes home." Golden grunted, unimpressed. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (25 of 111) [2/5/2004 12:33:30 AM], you know my name." saying, "You can learn about the Grove only in it and from it." A few days later she came down to. "He's dead," she said, "two years. The marsh fever. You have to watch out for that, here. The. behind existed now only in my memory." "Lord Thorion has returned from death to save us all," the Windkey said, fiercely and clearly. "He. All he saw was a mist on the water, all across the sea beyond the mouth of the bay. As he watched. "I know where it is," Anieb said. agreeing to end the enmity of their races. naming truly, is a great power. To know the true name is to have power, as you know, mistress. And. Havnor, gathering its tributaries on the way. Eighty ships sailed past Ark and Ilien on a true and. file:///D:/Documents%20and%20Settings/harry/...0%20LeGuin%20-%20Tales%20From%20Earthsea.txt (74 of 111) [2/5/2004 12:33:31 AM]. and got angry with them and with him for not moving faster. It was strange to him that they had no. his hand on it. "This is clever," he said. "But who is it? A newcomer, I think." He sniffed. by in a few long breaths, a quivering of leaves, a bird singing far off and another answering it. headed, or represented in dealings with other groups, by an elected Isleman or Islewoman, In the. "Where's he hiding?" The weatherworker knew his trade, at least. Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them? "It doesn't matter; I just want to get out of the station!" little else of Archipelagan culture, having no commerce, no agriculture, and no knowledge of other. Anthil had the half of the broken Ring brought by Erreth-Akbe, which had descended to her from. black machines. I took these for cars. But when the two nearest me emerged and, before I had. on Roke!" sound of thunder was still in his mind, the vibration of thunder was in his bones, in his feet. She tried to sit up again, looking up, but the shaking and shuddering seized her and wracked her. "From far away." He brought her into his mind and saw her as he had seen her, there, in that room, and called out. "If you need to read the Mountain," his teacher had told him, "go to the Dark Pond at the top of." "You are safer here." the source and center of magic. way out, in the aisle, she put both her hands into a small niche lined with tiles; something in there. will not go dry." They dug down carefully and came to the water; they let it leap up into the. shadowy sunrise land. Far ahead, bright in the first sunlight, he saw the curve of a high green. "Maybe things are, for women. But I... I can't be double-hearted." came to be a psychological fact. Without this bias of conviction, however, it appears that the. gave me courage. I stood and looked. Someone brushed by me; I caught the fragrance of. Her eyes were wild. "Oh, it's you who have it to spare, sir. We're poor folk here. And ignorant," she said, with a flash of her eyes, and led on. He slept there, on the ground. At sunrise he got up and walked by the high road over to Re Albi. without ceremony by ordinary people speaking Hardic; but practitioners of magic speak even such. was shade from the hot sun four or five women sat spinning by a well. Children played nearby, freely, as if they were not material. I must be going now, I told them voicelessly, with my lips only. I began to back off in the. me now?" of the Masters of Roke even now, though the Chanter took the Finder's place when finding came to. Summoning the useful Hound to help him, Early had made a very thorough inquiry into what happened. "What's up?" said Kurrem karmerruk. "I've been reading about dragons. Not paying attention. But all the boys I had studying at the Tower left." we will wait there for the others of the Nine." "I talked to him last night," Golden said. "He said to me that there are certain natural gifts. He tried to remember how to make light. Anieb

said to him, plaintively, "Can't you make the light?" But he could not. He crawled in the dark till the sound of water was loud and the rocks under him were wet, and groped till his hand found water. He drank, and tried to crawl away from the wet rocks afterward, because he was very cold. One arm hurt and had no strength in it..When Azver rejoined the other men there was something in his face that made the Herbal say, "What is it?".clerks; maybe these were offices for currency exchange, or a post office. I walked on. I was now.founded a school on Roke as a center where they might gather and share knowledge, clarify the.off for the Ninety Isles as soon as Tern liked..The two earliest surviving epic or historical texts are The Deed of Enlad, and The Song of the Young King or The Deed of Morred..and dignity shrank to impotence.."Yes," said Ember. "We must hide, and forever if need be. Because there's nothing left but being killed and killing, beyond these shores. You say it, and I believe it."..a collateral line of the House of Enlad, inheriting the throne from a cousin; his forebears were.of us to do with a diamond but hide it? Anybody rich enough to buy it from you is strong enough to.My expression amused her. I looked at her; she stopped smiling..rock hovered in the air, and when he flipped his fingers downward it fell to earth..ceilings and concave walls. Ceilingless corridors, at the top enveloped in a shining powder. I.Young King or The Deed of Morred..as one of themselves, the good man who had found poor Otter half dead in the forest and brought.You must not weaken, and not think, "Oh, if I just beg them to let me in, they can't refuse me."..They began, however, with the peaches..Red Mother is born the Allking. From the spittle of a dying slave is made the silver Seed of
