

THE PERUVIAN EXPERIMENT CONTINUITY AND CHANGE UNDER MILITARY RULE

He tugged on a pair of thin latex surgical gloves. Flexed his hands. All right..Although, by unspoken agreement, they avoided any talk of loss and death, the mood remained grim. Angel sat in thoughtful silence, pushing her food around her plate rather than eating it. Her demeanor intrigued Tom, and he noticed that it worried her mother, who put a different interpretation on it than he did..She leaned forward in her seat, and toward him, so he could see her more directly, and when she put one trembling hand against his cheek, his head dropped forward on neck muscles as limp as rags, his chin.Junior reached the window seat and stared down at her. "I don't believe that's true."."What kept me going these past two and a half years was knowing that I could get my hands on Mr. Cain when I was finally well enough to do something about him."..She realized she hadn't turned on the radio. Before she could reach for the switch, she was asleep.."You think I can turn the King's order down? You want to see me sent to row with the slaves in the galley we're building? Use your head, boy!".The high point of his day was coming home to Perri. They met when they were thirteen, married at twenty-two. In May they would celebrate their twenty-third anniversary..Although Junior continued to feel threatened, continued to trust his instinct in this matter, he didn't devote his every waking hour to the hunt. He had a life to enjoy, after all. Self-improvements to undertake, galleries to explore, women to pursue..unwittingly oversell any strong reaction, striking a false note and raising suspicions..When Celestina first entered his ICU cubicle, the sight of his face scared her in spite of the surgeon's assurances. Gray, he was, and sunken-cheeked-as though this were the eighteenth century and so many medicinal leeches had been applied to him that too much of his essential substance had been sucked out..The dinner guest leaned back into the car, as though to retrieve something. Perhaps he, too, had been considerate enough to bring a small gift for his hostess..Junior phoned a twenty-four-hour-a-day locksmith and paid premium post midnight rates to have the double deadbolts re-keyed..If this insurance payoff was not mere coincidence, if it was the wealth that had been foretold, then how far behind the fortune did the knave travel? Years? Months? Days?."And in some of them, maybe I died the night you were born, and you live alone with your dad."..Among those present before the caravan returned were a few who should have known better than to allow this madness. Tom Vanadium, Edom, Maria. They stared up at the boy, tense and solemn, and Agnes could only suppose that they, too, had arrived after the fact, with the boy already beyond easy recall..SERAPHIM AETHIONEMA WHITE was nothing whatsoever like her name, except that she had as kind a heart and as good a soul as any among the hosts in Heaven. She did not have wings, as did the angels after which she had been named, and she couldn't sing as sweetly as the seraphim, either, for she had been blessed with a throaty voice and far too much humility to be a performer. Aethionema were delicate flowers, either pale-or rose-pink, and while this girl, just sixteen, was beautiful by any standard, she was not a delicate soul but a strong one, not likely to be shaken apart in even the highest wind..He was focused enough, in fact, to find Bob Chicane, kill the insulting bastard and get away with it..When the police operator answered, Junior shrieked, "I've been shot! Jesus! Shot! Help me, an ambulance, oooohhhh shit! Hurry!".This was the same woman who had been stripping the second bed when Celestina arrived earlier. Now she was here to remake the first..Junior couldn't see the lights of the nearest other houses. Either those structures were screened by trees or the neighbors weren't home.."Some men," she said, "wouldn't be able to sustain desire when their hands touched my back. I'll understand if you're one of them. It's not beautiful to the eye, and rough as oak bark to the touch. That's why I brought you here, so you'd know this before you consider where you want to go from ... where we are now."..The spectral singer didn't exhibit her blood-and-bone sisters' reluctance to pursue her man.."Last I noticed, his car was out. Let me check." Sparky put down his phone and went to look in the garage. When he returned, he said, "Nope. Still out. When he parties, he usually parties late."..Instead of engaging in the confrontation for which he had been pressing ever since his first visit, Vanadium surprised Junior by breaking eye contact, turning from the bed, and crossing the room to the door..Her lead gaze was still surprisingly clear. How remarkable that the impact hadn't caused a starburst hemorrhage in either of her exquisite, lavender-blue eyes. No blood, lust surprise..Through miles of worry, natural beauty, imagined omens, and the iron-red sands of Mars, they drove at last to Franklin Chan's offices in Newport Beach..Oblivious that she and Barty had become the center of attention, Angel said, "Does he ever get the quarters back?".Martinis were ordered all around. None here observed a vow of absolute sobriety..She didn't hide the diagnosis from the family, but she delayed telling them the prognosis, which was bleak. Already, her bones were tender, packed full of mutated immature white cells that hindered the production of normal white cells, red cells, and platelets..He was uncomfortable, achy, thirsty, but he remained utterly still and observant. After a while, he realized that the sense of oppression with which he'd awakened was not entirely a psychological symptom: Something heavy lay across his abdomen. And it was cold-so cold, in fact, that it had numbed his middle to the extent that he hadn't immediately felt the chill of it. Shivers coursed through him. He clenched his jaws to prevent his teeth from chattering and thereby alerting the man in the chair. Although he never took his eyes off the comer, Junior became preoccupied with trying to puzzle out what was draped across his midsection. The mysterious observer made him sufficiently nervous that he couldn't order his thoughts as well as usual, and the effort to prevent the shivers from shaking a sound out of him only further interfered with his ability to reason. The longer that he was unable to identify the frigid object, the more alarmed he became. He almost cried out when into his mind oozed an image of Naomi's dead body, now past the whitest shade of pale, as gray as the faint light at the window and turning pale green in a few places, and cold, all the heat of life gone from her flesh, which was not yet simmering with any of the heat of decomposition that would soon enliven it again..From the corn soup to the baked ham to the plum pudding, he did not speak of his dry walk in wet weather..Now, since he didn't intend to date this woman again, he grabbed the only chance

he might ever have to learn the intimate, eccentric details of her life. He began in her kitchen, with the contents of the refrigerator and cupboards, concluding his tour in her bedroom..They ordered martinis, and when Kathleen, perusing a menu, asked her husband what looked good for dinner, he suggested, "Oysters?".than the left: slack yet with a pulled look. The left eyelid drooped. That side of her.He stepped into the house, quietly closed the front door, and examined the bottle. The glass was thick, especially at the base, where a large punt--a deep indentation-encouraged sediment to gather along the rim rather than across the entire bottom of the bottle. This design feature secondarily contributed to the strength of the container. Evidently he had hit her with the bottom third of the bottle, which could most easily withstand the blow..In reaction to a terrible sense of weightlessness, Agnes's two-fisted grip on the steering wheel grew so tight her hands ached. She held on with all her strength, as if at real risk of floating out of the car and up toward the source of the raveling skeins of rain..After adjusting the hairpin that held her lace mantilla, Maria passed from the narthex into the nave She dipped two fingers in the holy water that glimmered in the marble font, and crossed herself.. "The girl's baby," said Nolly, "was placed with Catholic Family Services for adoption."..After a while, he dared to crack his eyelids. Pressing against his eyes was a blackness as smooth and as unrelenting as any known by a blind man. Not even a ghost of light haunted the night beyond the window, and the slats of the venetian blind were as hidden from view as the meatless ribs under Death's voluminous black robe..Edom would have judged this a perfect day-except for the earthquake weather. He was convinced that the Big One would bring the coastal cities to ruin before twilight.."Everybody needs cheese," Angel said, which apparently meant that Mrs. Orwall would never lack work. "Mommy, you're wrong..Suddenly Junior intuited the identity of the man in the chair. Beyond question, this was the plainclothes police officer with the birthmark.."Oh? Do they rent their house out to pirates with little pirate children, clowns with little clown children?"..As yet, he hadn't taken either an antiemetic or antihistamine to ward off vomiting and hives, because he wanted to medicate -against those conditions as shortly before the violence as was practical, to ensure maximum protection. He'd intended to dose himself only after he followed Celestina home from the gallery and could be reasonably certain that he had located the lair of Bartholomew..Their struggle to put their sorrow into words moved Agnes not because they cared so deeply, but because in the end they were unable to express themselves adequately. Without the relief provided by expression, their anguish grew corrosive. Their lifelong introversion left them without the social skills to unburden themselves or to provide solace to others. Worse, their obsessions with death, in all its many means and mechanisms, had prepared them to expect Barty's cancer, which left them neither shocked nor capable of consolation, but merely resigned. Ultimately, in great frustration, each twin was reduced to fragmented sentences, crippled gestures, quiet tears-and Agnes became the only consoler..Not that she ever gave any indication that her brothers were other than a source of pride for her. She treated them always with respect, tenderness, and love-as if unaware of their shortcomings..Jacob made more fire sounds as he stripped the clear cellophane off a second new deck of playing cards, then off a third and a fourth..With his bent thumb against the crook of his forefinger, he flipped the quarter. Even as the coin snapped off the thumbnail and began to stir the air, Tom flung up both hands, fingers spread to show them empty and to distract. Yet on a second look, the coin was not airborne as it had seemed to be, no longer spinning-wink, wink-before their dazzled eyes. It had vanished as though into the payment slot of an ethereal vending machine that dispensed mystery in return..Junior tossed garments on the floor and across the bed to create the impression that the detective had packed with haste. After being imprudent enough to blast Victoria Bressler five times with his service revolver-perhaps in a jealous rage, or perhaps because he had gone nuts-Vanadium would have been frantic to flee justice..Frequently, these days, she found herself explaining aspects of life to Barty that she hadn't expected to discuss for years to come. She wondered how she could make him understand this: Life can be so sweet, so full, that sometimes happiness is nearly as intense as anguish, and the pressure of it in the heart swells close to pain.."And maybe," said Agnes, caught up in the speculation, "when your life comes to an end in all those many branches, what you're finally judged on is the shape and the beauty of the tree.".."I know you, kid. You can handle anything from here on, whether it's a sold-out show or it's not, whether you're going to be famous or just another nobody."..On a street a half mile from the airport in Eugene, he sat in the parked Dodge long enough to gingerly unwind the bandages and use a tissue to wipe off the pungent but useless salve he'd purchased at a pharmacy. Although he pressed the Kleenex to his face so gently that the pressure might not have broken the surface tension on a pool of water, the agony of the touch was so great that he nearly passed out. The rearview mirror revealed clusters of hideous, large, red knobs with glistening yellow heads, and at the sight of himself, he actually did pass out for a minute or two, just long enough to dream that he was a grotesque but misunderstood creature being pursued through a stormy night by crowds of angry villagers with torches and pitchforks, but then the throbbing agony revived him..Looking toward the nearest window, where the wet night kissed the glass, he said, "Lawn sprinklers?".."You know where it comes from," her mother said with a yawn that betrayed her exhaustion after a night with no sleep and too much drama..Opening the directory to the marker, he found a card tucked between the pages. A joker, with BARTHOLOMEW in red block letters..In spite of her nature, Agnes could not find forgiveness in her heart this time. Words of absolution clotted in her throat. Her bitterness dismayed her, but she could not deny it..She looked around the room. "He's invisible like the Cheshire cat?" "His whole world is as real as ours, but we can't see it, and people in his world can't see us. There're millions and millions of worlds all here in the same place and invisible to one another, where we keep getting chance after chance to live a good life and do the right thing."..At the next comer, instead of continuing south, Junior angled aggressively in front of oncoming pedestrians, stepped off the curb, and headed east, traversing the, intersection against the advice of a Don't Walk sign. Horns blared, a city bus nearly flattened him, but he made.He did wonder why he had chosen this night of all nights to become even a more fearless adventurer, rather than a month ago or a month hence. Instinct

told him that he'd felt the need to test himself, that a crisis was fast approaching, and that to be ready for it, he must be confident that he could do what had to be done when the crunch came. Slipping into sleep, Junior suspected that Prosser might have been less lark than preparation. One detail. One only. It was a crucial detail, however, one that she absolutely must confirm before she left St. Mary's, even if she would be required to look at the child once more, this spawn of violence, this killer of her sister. He didn't want to risk marrying weapon and silencer here in the hall, where he might be seen. Besides, complications could arise from being splattered with Neddy's blood. Aftermath was disgusting, but it was also highly incriminating. For the same reason, he was loath to use a knife. When at last the caller spoke again, her voice sounded a kingdom away: "Will you tell Bartholomew ... ?". Angel. A less exotic synonym for her own name. Seraphim's angel. The angel of an angel. Junior was motivated not by twisted needs, but by rational self interest. Consequently, he opted to load the detective's body into the cramped backseat of the Studebaker with all limbs intact and head attached. The fully evolved man never has to rely on the gods of fortune, Zedd tells us, because he makes his luck with such reliability that he can spit in the faces of the gods with impunity. Agnes remembered the blood, the awful red flood. Excruciating pain and such fearsome crimson torrents. She'd thought her baby had entered the world stillborn on a tide of its own blood and hers. Junior's attorney-Simon Magusson--insisted upon full disclosure of maintenance records and advisories relating to the fire tower and to other forest-service structures for which the state and the county had sole or joint custodial responsibility. If a wrongful--death suit was filed, this information would have to be divulged anyway during normal disclosure procedures prior to trial, and since maintenance logs and advisories were of public record, Hisscus and Knacker and Nork agreed to provide what was requested. He'd never taken too much from any one game. He was a discreet thief, charming his victims with amusing patter. Because he was so ingratiating and seemed only mildly lucky, no one begrudged him his winnings. Soon, he was more flush than he'd ever been as a magician. And when she finally looked directly at him, blinked at him, her lashes flicking off a spray of fine droplets, Agnes saw that Barty was dry. Not a single jewel of rain glimmered in his thick dark hair or on the baby-smooth planes of his face. His shirt and sweater were as dry as if they had just been taken off a hanger and from a dresser drawer. A few drops darkened the legs of the boy's khaki pants--but Agnes realized this was water that had dripped from her arm as she'd reached across him to adjust the vent. Clenching his right hand around the quarter, waving left hand over right, he intoned, "Jingle-jangle, mingle-jingle." Opening his right hand, he revealed that the coin had vanished. "Why do they let a man like that keep his badge?" Junior asked. "He's outrageous, wholly unprofessional." "A ship without an anchor can never be at rest," he answered. "It's at the mercy of the sea." Celestina screamed--"Here! In here!"--as she slapped the magazine into the butt of the pistol. For guidance, Agnes couldn't rely entirely on any of the child rearing books in her library. Barty's unique gifts presented her with special parenting problems. Now, when he asked if he could stay up even later, to read about John Thomas Stuart and Lummo, John's pet from another world, she granted him permission. Room to room through the upstairs. Checking closets. Behind furniture. Bathrooms. In Paul's private spaces. No Cain. Agnes wanted to tell them that all their efforts would be to no avail, that they should cease and desist, be kind and let her go. She had no reason to stay here anymore. She was moving on to be with her dead husband and her dead baby, moving on to a place where there was no pain, where no one was as poor as where everyone spoke a single language and had all the blueberry pies they needed. On the third of June, he found another useless Bartholomew, and on Saturday, the twenty-fifth, two deeply disturbing events occurred. He switched on his kitchen radio only to discover that "Paperback Writer," yet another Beatles song, had climbed to the top of the charts, and he received a call from a woman. This bond between the Lampion and White families, which Grace had already heard about from Paul, came as news to Celestina as much as to Agnes. It inspired more reminiscences of lost husbands and the wistful wish that Joey and Harrison could have met. In the bedroom, as he opened a suitcase on the bed, he saw the quarter. Shiny. Heads-up. On the nightstand. He was relieved that he hadn't moved his head or made a sound. He wanted to understand as much of the situation as possible before revealing that he was awake. "As I explained, he might have thought I was you," Edom said, staring at the neatly ordered volumes on the nearby bookshelves. "Toes," he repeated immediately in his sweet, piping voice. This was a new word for him. "Fifteen fifty-six?" Bill frowned. "Hell, the Chinese probably didn't even have mud back then." From the phone, Barty proceeded directly to the refrigerator. He opened the door, got a can of orange soda, and returned without hesitation to his chair at the table. Kathleen Klerkle, Mrs. Wulfstan, sitting on the edge of Nolly's desk, looked diagonally across it at the visitor in the client's chair. Actually, Nolly had two chairs for clients. Kathleen could have sat in the second; however, this seemed to be a more appropriate pose for a hawkshaw's dame. Not that she was trying to look cheap; she was thinking Myrna Loy as Nora Charles in *The Thin Man*--worldly but elegant, tough but amused. Earlier, the dirty-sheet clouds had been wrung dry. Now, the trees that overhung the house had finally stopped dripping on the cedar shingled roof. The night was so still that Agnes could hear the sea softly breaking upon the shore more than half a mile away. "December 1, 1958, in Chicago, Illinois, a parochial-school fire killed ninety-five." Indeed, the tree inspired him. After he shot the girl, he would open the window and toss her body into the oak. Let Celestina find her there, randomly pierced by branches in a freestyle crucifixion. A sense of mystery overcame Agnes, unnerving but not entirely or even primarily unpleasant. When Bartholomew first said "Kay-jub," and held out one hand toward his uncle, Jacob surprised Agnes by crying with happiness. "I'll come by at eight o'clock for breakfast," Wally suggested. "We have to set a date." The cheerful tides of friends and neighbors, over the years, had washed away nearly all the stains that the dark rage of Agnes's father had impressed on these rooms. She hoped her brothers might eventually see that hatred and anger are only scars upon a beach, while love is the rolling surf that ceaselessly smooths the sand. Admittedly, she had allowed herself to be disturbed by the fall of the cards, too. According them any credibility at all

opened the door to full belief. The upper end of the bed was elevated. Otherwise, Agnes would not have been able to see the room, for she was too weak to raise her head from the pillows. Shortly before three o'clock, Thursday afternoon, in a state of agitation, Barty raced into the kitchen, where Agnes was baking buttermilk-raisin pies. Holding Red Planet open to pages 104 and 105, he complained urgently that the library copy was defective. "There's twisty spots in the print, twisty-funny letters, so you can't just exactly read all the words. Can we buy our own copy, go out and buy one right now?" A floor-to-ceiling bookshelf was crammed with pulp magazines that had been published throughout the 1920s, '30s, and '40s, before paperback books supplanted them. The All-Story, Mammoth Adventure, Nickel Western, The Black Mask, Detective Fiction Weekly, Spicy Mystery, Weird Tales, Amazing Stories, Astounding Stories, The Shadow, Doc Savage, G-8 and His Battle Aces, Mysterious Wu Fang He went upstairs to change out of his dark blue suit and badly scuffed black shoes.
