The top of the dome heaved over away from him, and the floor raised itself high in the air, held down by the unbroken anchors on the side farthest from him. There was a gush of snow and dust; then the floor settled slowly back to the ground. Indeed, a species can, through sexual reproduction, split with relative ease into two or more species that will take advantage of somewhat different niches in the environment. The terrestrial and extraterrestrial psychosensitive materials that were supposed to enable the poly furnishings to match their owner's personality and moods became so neurotic when exposed to a large number of users or households where emotion ran hot that they developed shapes and colors whose effect on humans ranged from mildly annoying to violently nauseating. Polys were appropriate for Amanda, though. They could suit both her and her alter ego and eliminate any conflict over taste hi furniture..He thought for a moment. "Maurice." They proceeded to set it down directly before the gate. I knew from its length that here was no ordinary wealthy merchant, but I was unprepared for the personage who presently stepped out and stood gazing at the Project with black blazing eyes. Those eyes burned right through Ike and Eli and Dan and me, as though we weren't even there, then swept upward,

absorbing the entire Project with a single glance. It dawned on me finally, as I took in the small gold crown nestled in the black ringleted hair, the flared eyebrows, the fierce nostrils and the defiant jaw, that I was looking at the King."That's what I want to do in the morning," Song said. "Unless Mary will let us take a look tonight?" She said it hopefully, but without real expectation.
